

debt, but it did discharge all the debts of the "incorporated pirates" who had raided the treasury of the roads during the last thirty years.

A controversy followed over the question of whether the bill would extinguish the debt in fifty years. Mr. Kelly, who was standing on the floor, was so excited in his own excitement while speaking that some of the members crowded about, and the galleries around the house were so packed that the speaker had to repeat the words of the House-Banking bill of yesterday.

Mr. Maguire (Cal.) declared that the payment under the bill would aggregate annually 1-1/2 per cent on the debt, and having said that percentage for fifty years the debt would be paid.

This had been furiously denied by members of the committee, but it was true, and he would prove it.

An Attempt to Extend the Debate.

At this point an attempt was made to extend the debate on the bill until Monday or Tuesday. The leaders on both sides agreed that it was necessary to the intelligent understanding of the bill, but Mr. Lane (Ill.) objected, and Mr. Lockwood (N. Y.) demanded the regular order.

Mr. Maguire accordingly proceeded, devoting the remainder of the day to the discussion of the bill, which Huntington, Crocker, Stanford and Hopkins, as stockholders, turned over to themselves, as stockholders, \$22,000,000 of property.

If Warren Hastings had been manipulating the road he would have been more concerned under the bill, which would have given the California and Oregon, built out of the funds of Central Pacific, for \$10,000,000 and turned every dollar of it into their own pockets. The time at hand when those men or their estates could be reached. Fifty millions of Huntington's money and \$15,000,000 of the estate of Leland Stanford could be secured. Fifteen millions of the estate of Stanford were now tied up to satisfy the statutory obligation. The main object of the bill was to take that property by operation of the law.

Mr. Wendell (Mich.), in reply, reiterated the assertion made previously in the House, that the bill would take the rights and remedies against the "Big Four." The bill, he said, presented a reasonable method of collecting the debt due from the roads.

Mr. Terry's Amendment.

Mr. Terry (Ark.) offered an amendment requiring the holders of the first mortgage bonds to waive their priority in favor of the United States when the companies make provision for the payment of the first mortgage bonds as required, before the companies should be allowed to issue any other bonds.

Mr. Kelly denied the assertion that the amount of payments by the Kelly bill did not equal the interest on the debt for fifty years at 5 per cent.

Mr. Edwards (Cal.) replied that the effect of the bill was to extend the debt fifty years, at 5 per cent, and release the corporations from paying the principal.

Mr. Kelly denied the assertion that the amount of payments by the Kelly bill did not equal the interest on the debt for fifty years at 5 per cent.

TRAGEDY IN A POLICE STATION.

A Holyoke Officer Shoots a Former Captain.

HOLYOKE, Mass., February 2.—A tragedy, which cannot be explained, occurred this morning in the police station in this city. Officer Patrick J. Devereaux shot and killed a man who had been arrested on a charge of larceny.

Mr. Kelly denied the assertion that the amount of payments by the Kelly bill did not equal the interest on the debt for fifty years at 5 per cent.

LATE NEWS BY WIRE

Indications That Yesterday's Cleveland Fire Was Incendiary.

CLEVELAND, Ohio, February 2.—Testimony of a most startling nature was given today at the coroner's investigation of the Deaconess Home fire, in which four persons lost their lives yesterday. The police have taken charge of the burned building, and a search is being made for three men who are supposed to know something about the origin of the fire.

Miss Ann Lockwood, acting matron of the home, testified that shortly after 10 o'clock she saw a fire in the kitchen, and the entire house was wrapped in smoke and flames almost instantly. She said three men had been loitering about the house for several days. When the fire broke out she rushed to the front door, and found that these same men were in the yard.

One of the men attracted her frantic appeals for assistance in getting out of the house. The explosion was evidently in the basement, in the rear of the furnace, and the registers were blown from their places. The police are very reticent, but it is evident they are working on the theory that the fire was incendiary.

THE FINANCIAL SITUATION

No Significant Developments Today—Action Deferred Until Next Tuesday.

All Arrangements Made for an Issue of Four Per Cent Bonds—Mr. Curtis Again in New York.

There were no significant developments in the financial situation today, and the impression now prevails that action has been deferred until next Tuesday, when the President's cabinet will probably decide upon a course of action. Meanwhile Assistant Secretary Curtis has returned to New York for a further conference with the bankers on the subject of a government loan on a 4 per cent basis. It is understood that the proposition originally made by the bankers was not entirely acceptable to the President and that Mr. Curtis' present mission is to negotiate better terms on behalf of the government.

All the necessary arrangements have been made for a loan of \$100,000,000 at 4 per cent, and they will be issued as soon as satisfactory terms have been arranged with the banks and trust companies which are to subscribe for the bulk of the bonds. The present hitch over terms is not serious, and will probably be satisfactorily adjusted in time for final action by Tuesday night. The gold withdrawals today were insignificant, being less than \$15,000.

Currency Canvass of the Senate.

Many eastern republican Senators are getting telegrams and letters from their constituents urging them to stand by the President and lay aside party feeling and aid in passing a sound currency bill. This has impelled a canvass of the Senate by several Senators and they point out that the anti-silver men are in the minority. The canvass shows 47 for free coinage of silver and 39 against it.

The admission of Senators Wilson of Washington and Clark of Nevada will increase the free silver vote to 49. The following is the estimate of the free coinage and anti-free coinage strength:

Free coinage: Wilson, Wash., Nev., Blackburn, Ind., Butler, Cal., Cameron, Okla., Coker, Kans., Dubois, Pa., Faulkner, Ga., Gordon, N. H., Harrison, N. Y., Hunt, N. Y., Jones, Ark., Keith, N. D., Nevada, Ky., McLean, Md., Martin, Miss., Mitchell of Oregon, Morgan, Pa., Perkins, Ind., Pettibone, Wis., Pugh, N. C., Ransom, N. C., Shoup, N. D., Stewart, Utah, Turpie, Wis., Voorhees, Ind., White and Wolcott, Ill.

Anti-free coinage: Allison, Iowa, Bristow, Okla., Camden, Cal., Carey, Cal., Culberson, Tex., Dixon, Ill., Frye, N. H., Gibson, N. Y., Gorman, N. Y., Hale, N. H., Hendricks, Ind., Hoar, N. H., Lodge, Mass., McMillan, N. C., Mansfield, N. H., Mitchell of Wis., Morrill, Me., Perkins, Ind., Pettibone, Wis., Pugh, N. C., Ransom, N. C., Shoup, N. D., Stewart, Utah, Turpie, Wis., Voorhees, Ind., White and Wolcott, Ill.

The House committee on rules has decided to give Tuesday, Wednesday and Thursday of next week for consideration of the administration bill, the vote to be taken Thursday afternoon.

ARCHITECT CLARK.

A Little Breeze in the Committee That Has Been Investigating Him.

The usual security that has characterized the administration into the office of the supervising architect of the Capitol by members of the ventilation and acoustic and the public buildings committee, sitting jointly, was somewhat disturbed today by a momentarily heated colloquy between Representative Walker of Massachusetts and S. M. Stockbridge, formerly commissioner of the general land office, who appears for Architect Clark.

Mr. Stockbridge objected to Mr. Walker's mode of questioning Mr. Clark, an interruption which was not allowed to pass. Sharp words are said to have passed between the two, but an explanation by Mr. Stockbridge seemed to satisfy Mr. Walker, who then withdrew.

Mr. Stockbridge said the incident at the investigation proceeded. Members of the committee say that nothing has been decided as to whether the investigation of the affairs of the office, but that Architect Clark seems to be ignorant of various details of office management, with which he ought to be familiar.

ENGLAND TOO YIELDING.

The Marquis of Lorne on Dealings With the "Yankees."

LONDON, February 2.—The Marquis of Lorne has written a long article, which appears in the Pall Mall Gazette this afternoon, on Pope's "Life of Sir John A. Macdonald." The marquis says that the author will find all he said in praise of Sir John A. Macdonald to be "echoed by all of us who knew him."

The marquis says that the Marquis of Lorne remarks: "English statesmen fear that the Yankee is always long to twist that much twisted thing, the Lion's tail, into a new shape, and that the public, that tone, and the Canadians, knowing this, desire to hold their own and carry their chins as high as they can."

The marquis says that the Marquis of Lorne remarks: "English statesmen fear that the Yankee is always long to twist that much twisted thing, the Lion's tail, into a new shape, and that the public, that tone, and the Canadians, knowing this, desire to hold their own and carry their chins as high as they can."

THE SUFFERING POOR

Their Distress Increased by the Snow Storm Today.

It is the practice of The Star to print on Saturday a sworn statement of its circulation day by day for the preceding week. It would seem self-evident that the advertiser is entitled to this protection. Below will be found the statement for the week just past.

The average circulation exhibited is believed to be much more than the combined circulation of the other Washington dailies, and fully five times that of its afternoon contemporary.

THE RELIEF COMMITTEES WORK

Good Returns Have Been Received From the Canvassers.

CHARITABLE ORGANIZATIONS

The rooms of the central relief committee presented a busy aspect this morning, when the force of clerks there began to open the envelopes sent in by the canvassers. About one-half of the envelopes left by the canvassers had come in up to noon, and the returns were certainly encouraging. The full amount of the committee reached the sum of \$3,963. This amount will be considerably increased, although it cannot be expected to be doubled, by the other half of the reports to come in. Last year the amount collected by the general canvass of the city brought in \$13,000. The same amount can be relied upon, it is thought, this year, the conditions are changed for the work, now harder times, less money in circulation, many out of work who gave last year, and besides all this, the greater need now had pretty well drained many sources of charity. This collection began, however, money, many plans today had notices of clothing to be sent for.

These were all turned over by Mr. Wright to Mr. Lawrence, and every one of them that they are collected. Many who give articles in this way suppose the system of collection is so direct and perfect that a warrant out to 24 hours, and the canvassers or Mr. Wright. Those who are not so sure, however, are not so sure, but they are collected. Many who give articles in this way suppose the system of collection is so direct and perfect that a warrant out to 24 hours, and the canvassers or Mr. Wright. Those who are not so sure, however, are not so sure, but they are collected.

Mr. Gardner has a careful system of pressing and cleaning, and every driver has a blank filled out with the description of the thing to be called for, who gives it, where it is and where it is to be used. The market men, who are responsible can be fixed and the error traced at once.
